Rest is the great restorer. We tire our muscles by exercise and then rest to restore them; yet a great many of us do not stop to think how little rest we give to our stomachs. As a usual thing no part of our bodies is so generally overworked as our digestive organs. A tired and overworked stomach will give signs of distress to which we pay no heed until at last Dyspepsia takes hold. Indigestion is just a warning, and if we heed the warning we can easily avoid further consequences. KODOL is sold on a guarantee relief plan. It is sold here by South Side Drug Store, Bristol, W. H. Sheldon, Middlebury.

Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

The Judge Uses Forceful Language.

Judge W. B. Simmons of Fincastle, Va., told the reporter that L & M Paint was used on his residence in 1882 and held its color well for 21 years; he furthermore said that 3 years ago he was induced to use another paint and is sorry he did, because the other paint didn't make good. The judge will now always use L & M, because he knows if any defect exists in L & M paint the house will be repainted for nothing.

The L & M Zinc hardens the L & M White Lead and make L & M paint wear like iron for 10 to 15 years.

So Don't Hurry, Ladies.

Herbert Spencer, who is the best authority on biological truths, thinks that the eventual mixture of the varieties of the race will produce in America a finer type of man than has heretofore existed in our world, more plastic, more adaptable, more capable of undergoing the modifications needful for complete social life, and flatters the coming women with the assurance that America will produce men grander than the world has yet known, so if this be true those not already mated may find little difficulty in securing model husbands.
